<MONTH YEAR>

Report Approval

The project work “**Smart Resume Crafter with Real-Time AI Suggestions & Live Preview**” is hereby approved as a creditable study of an engineering/computer application subject carried out and presented in a manner satisfactory to warrant its acceptance as prerequisite for the Degree for which it has been submitted.

It is to be understood that by this approval the undersigned do not endorse or approve any statement made, opinion expressed, or conclusion drawn there in; but approve the “Project Report” only for the purpose for which it has been submitted.

Declaration (Annexure-E, Remove after finalization)

Declaration

I/We hereby declare that the project entitled “**Smart Resume Crafter with Real-Time AI Suggestions & Live Preview**” submitted in partial fulfillment for the award of the degree of Bachelor of Technology/Master of Computer Applications in ‘<Name of Department>’ completed under the supervision of <**Name, designation and department of the Guide(s)**>, Faculty of Engineering, Medicaps University Indore is an authentic work.

Further, I/we declare that the content of this Project work, in full or in parts, have neither been taken from any other source nor have been submitted to any other Institute or University for the award of any degree or diploma.

Signature and name of the student(s) with date

Certificate (Annexure-F, Remove after finalization)

Certificate

I/We, <Name of the Guide(s)> certify that the project entitled “**Smart Resume Crafter with Real-Time AI Suggestions & Live Preview**” submitted in partial fulfillment for the award of the degree of Bachelor of Science/Master of Computer Applications by <Name of the student(s)> is the record carried out by him/them under my/our guidance and that the work has not formed the basis of award of any other degree elsewhere.

Acknowledgements

I would like to express my deepest gratitude to the Honorable Chancellor, **Shri R C Mittal**, who has provided me with every facility to successfully carry out this project, and my profound indebtedness to **Prof. (Dr.) D. K. Patnaik**, Vice Chancellor, Mediacaps University, whose unfailing support and enthusiasm has always boosted up my morale. I also thank **Prof. (Dr.) Ratnesh Litoriya**, Dean, Faculty of Engineering, Mediacaps University, for giving me a chance to work on this project. I would also like to thank my Head of the Department **Dr. Ratnesh Litoriya** for his continuous encouragement for the betterment of the project.

It is their help and support, due to which we became able to complete the design and technical report.

Without their support this report would not have been possible.

Students may write as per their experience.

Abstract

The Styled AI Resume Builder is a web-based application designed to help users create professional resumes using artificial intelligence.

The system allows users to input their details such as education, skills, and experience, and automatically generates well-structured and styled resumes.

The project uses modern web technologies along with AI-based text enhancement to improve resume content quality. It simplifies resume creation, especially for students and job seekers who lack formatting and writing expertise.

The system focuses on user-friendliness, automation, and customization, allowing users to choose templates and download resumes easily.

Standard Formats and Guidelines for Thesis / Dissertations / Reports

In this regulation, standard formats and guidelines for the submission of the thesis / dissertation / report are given which shall be the requirement for partial fulfillment of the respective degrees such as Ph.D, M.Tech, M.Phil etc.

(a) Organization of the Thesis / Dissertation / Report

The Thesis / Dissertation / Report shall be presented in a number of chapters, starting from Abstract, Introduction and ending with Summary and Conclusions. Other chapters will have the description of the work carried out by the student. All the chapters shall have precise title reflecting the contents of the chapter and be subdivided into *sections, sub-sections and sub-sub-sections* describing the contents distinctly with due emphasis.

When the work comprises two or more mutually independent investigations, the thesis may be divided into two or more parts, each with an appropriate title. However, the numbering of chapters will be continuous right through, for example Part I may comprise of Chapters 1-5 and Part II having Chapters 6-9. The chapters and their contents are highlighted below.

TITLE PAGE, DEDICATION, ACKNOWLEDGEMENT, Approval Sheet, ETC.

(b) Abstract

About 500 words abstract shall highlight the important features of the thesis / dissertation / report. The electronic version shall be submitted to KMC for inclusion in the website. The Abstract in the thesis, however, additionally shall have two more parts, namely, the layout of the thesis giving a brief chapter wise description of the work and the key words.

(c) Contents

The contents shall follow the Abstract and shall enlist the titles of the chapters, section and sub-section using decimal notation, as in the text, with corresponding page number against them, flushed to the right.

(d) List of Figures and Tables

Two separate lists of Figure captions and Table titles along with their numbers and corresponding page numbers against them shall follow the Contents.

(e) Abbreviation, Notation and Nomenclature

A complete and comprehensive list of all abbreviations, notations and nomenclature including Greek alphabets with subscripts and superscripts shall be provided after the list of figures and tables. (As far as possible, generally accepted symbols and notation should be used).

Auxiliary pages from dedication (if any) to abbreviations shall be numbered using Roman numerals in lower case, while the text starting from the Introduction shall be in Hindu-Arabic. (The first pages in the both the cases shall not bear a page number).

(f) Declaration of Academic Honesty and Integrity

A declaration of Academic honesty and integrity is required to be included along with every thesis / dissertation / report **after the approval sheet**. Sample copy of the 'Declaration Sheet' is in the Specimen.

The writing of the thesis / dissertation / report will commence in several chapters starting from Introduction. The chapter wise details are given below:

(g) Introduction

The title of **Chapter 1** shall be Introduction. This shall normally form literature review and shall present a critical appraisal of the previous work published in the literature pertaining to the topic of the investigation. The extent and emphasis of the chapter shall depend on the nature of the investigation. It may also highlight the significant contributions from the investigation. It shall justify and highlight the problem posed, define the topic and explain the aim and scope of the work presented in the thesis.

(h) Report on the Present Investigation

The reporting on the investigation shall be presented in one or more chapters with appropriate titles.

(i) Due importance shall be given to experimental setups, procedures adopted,

(j) Techniques developed, methodologies developed and adopted.

(k) While important derivations / formulae should normally be presented in the text of these chapters, extensive and long treatments, copious details and tedious information, detailed results in tabular and graphical forms may be presented in Appendices. Representative data in table and figures may, however, be included in appropriate chapters.

(l) Figures and tables should be presented immediately following their first mention in the text. Short tables and figures (say, less than half the writing area of the page) should be presented within the text, while large tables and figures may be presented on separate pages.

(m) Equations should form separate lines with appropriate paragraph separation above and below the equation line, with equation numbers flushed to the right.

(n) Results and Discussions

This shall form the penultimate chapter of the thesis and shall include a thorough evaluation of the investigation carried out and bring out the contributions from the study. The discussion shall logically lead to inferences and conclusions as well as scope for possible future work.

(o) Summary and Conclusions

This will be the final chapter of the thesis. A brief report of the work carried out shall form the first part of the Chapter. Conclusions derived from the logical analysis presented in the Results and Discussions Chapter shall be presented and clearly enumerated, each point stated separately. Scope for future work should be stated lucidly in the last part of the chapter.

(p) Appendix

Detailed information, lengthy derivations, raw experimental observations etc. are to be presented in the separate appendices, which shall be numbered in Roman Capitals (e.g. "Appendix IV"). Since reference can be drawn to published / unpublished literature in the appendices. These should precede the "Literature Cited" section.

(q) Literature Cited

This should follow the Appendices, if any, otherwise the Summary and Conclusions chapter. The candidates shall follow the style of citation and style of listing in one of the standard journals in the subject area consistently throughout his/her thesis, for example, IEEE in the

Department of Electrical Engineering, Materials Transactions in Department of Metallurgical Engineering and Materials Science. However, the names of all the authors along with their initials and the full title of the article/monogram/book etc. have to be given in addition to the journals/publishers, volume, number, pages(s) and year of publication.

(r) Citation from websites should include the names(s) of author(s) (including the initials), full title of the article, website reference and when last accessed.

(s) Reference to personal communications, similarly, shall include the author, title of the communication (if any) and date of receipt.

(t) Publications by the candidate

Articles, technical notes etc. on the topic of the thesis published by the candidate may be separately listed after the literature cited. This may also be included in the contents. The candidates may also include reprints of his/her publications after the literature citation.

(u) Acknowledgements

The acknowledgments by the candidate shall follow the citation of literature, signed by him/her, with date.

(v) Format of the Thesis

(a) Paper Quality

(b) The thesis shall be printed/xeroxed on white bond or Executive Bond paper, whiteness 95% or above, weight 70 gram or more per square meter.

(c) Size

(d) The size of the paper shall be standard A 4; height 297 mm, width 210 mm.

(e) Type -Setting, Text Processing and Printing

(f) The text shall be printed employing laserjet or Inkjet printer, the text having been processed using a standard text processor. The standard font shall be Times New Roman of 12 pts with 1.5 line spacing.

(g) Page Format

i. The Printed Sheets shall have the following written Area and margins:

1. Top Margin	15 mm
2. Head Height	3 mm
3. Head Separation	12 mm
4. Bottom Margin	22 mm
5. Footer	3 mm
6. Foot Separation	10 mm
7. Text Height	245 mm
8. Text Width	160 mm

When header is not used the top margin shall be 30 mm.

ii. Left and Right Margins

The candidates shall have the options of single or double sided printing
Single sided/odd number page (in double sided printing)

Left Margin 30 mm

Right Margin 20 mm

Double sided- even numbered page

Left Margin 20 mm

Right Margin 30 mm

(w) **Pagination**

Page numbering in the text of the thesis shall be Hindu-Arabic numerals at the center of the footer. But when the candidate opts for header style the page number shall appear at the right and left top corner for the odd and even number pages, respectively.

Page number “1” for the first page of the Introduction chapter shall not appear in print, only the second page will bear the number “2”.

The subsequent chapters shall begin on a fresh page (fresh odd number page in case of double sided printing). When header style is chosen the first page of each chapter will not have the header and the page number shall be printed at the center of the footer.

Pagination for pages before the Introduction chapter shall be in lower case Roman numerals, e.g., “iv”.

(i) **Header**

When the header style is chosen, the header can have the Chapter number and Section number (e.g., Chapter 2, Section 3) on even numbered page headers and Chapter title or Section title on the odd numbered page header.

(ii) **Paragraph format**

Vertical space between paragraphs shall be about 2.5 line spacing. The first line of each paragraph should normally be indented by five characters or 12mm. A candidate may, however, choose not to indent if (s) he has provided sufficient paragraph separation.

A paragraph should normally comprise more than one line. A single line of a paragraph shall not be left at the top or bottom of a page (that is, no windows or orphans should be left)

The word at the right end of the first line of a page or paragraph should, as far as possible, not be hyphenated.

(x) **Chapter and Section Format**

Each chapter shall begin on a fresh page (odd number page in case of double sided printing) with an additional top margin of about 75mm. Chapter number (in Hindu-Arabic) and title shall be printed at the center of the line in 6mm font size (18pt) in bold face using both upper and lower case (all capitals or small capitals shall not be used). A vertical gap of about 25mm shall be left between the Chapter number and Chapter title lines and between chapter title line and the first paragraph.

(y) **Sections and Sub-sections**

A chapter can be divided into Sections, Sub-sections and Sub-sub-Sections so as to present different concepts separately. Sections and sub-sections can be numbered using decimal points, e.g. 2.2 for the second section in Chapter 2 and 2.3.4 for the fourth Sub-section in third Section of Chapter 2. Chapters, Sections and Subsections shall be included in the

contents with page numbers flushed to the right. Further subsections need not be numbered or included in the contents.

The Section and Sub-Section titles along with their numbers in 5 and 4mm (16 and 14 pt) fonts, respectively, in bold face shall be flushed to the left (not centered) with 15 mm space above and below these lines.

In further subdivisions character size of 3 and 3.5 with bold face, small caps, all caps and italics may be used for the titles flushed left or centered. These shall not feature in the contents.

(z) Table / Figure Format

As far as possible tables and figures should be presented in portrait style. Small size table and figures (less than half of writing area of a page) should be incorporated within the text, while larger ones may be presented on separate pages. Table and figures shall be numbered chapter -wise. For example, the fourth figure in chapter 5 will bear the number Figure 5.4 or Fig 5.4

Table number and title will be placed above the table while the figure number and caption will be located below the figure. Reference for Table and Figures reproduced from elsewhere shall be cited in the last and separate line in the table and figure caption, e.g. (after McGregor [12]).

Reference and Citation Style Guides

Providing references and citations is an important and essential part of any type of academic writing. The main purpose is to acknowledge the original source of ideas and work that is not the author's own, and to direct the readers to the original sources of information. Whenever you use sources such as books, journals, research papers, web sites, e-resources and others in the writings, one must give credit to the original author by properly citing the sources.

There are a number of different reference and citation styles available. Styles are basically well established practices and conventions. Depending on the discipline in which one is working and also the widely used style in the respective discipline, one can decide to select and use a particular style.

Following links provide the list of varieties of styles and also the guidelines for using.

1. [AAA Style \(American Anthropological Association\)](#)
2. [ACS Style \(American Chemical Society\)](#)
3. [AIP Style \(American Institute of Physics\)](#)
4. [American Antiquity Style-Society for American Archaeology](#)
5. [AMS Style \(American Mathematical Society\)](#)
6. [AP Style \(Associated Press Style\)](#)
7. [APA Style \(American Psychological Association\)](#)
8. [APSA Style \(American Political Science Association\)](#)
9. [ASA Style \(American Sociological Association\)](#)
10. [ASABE Citation Style \(American Society of Agricultural and Biological Engineers\)](#)
11. [ASME Citation Style \(American Society of Mechanical Engineers\)](#)
12. [Chicago Style](#)
13. [GSA \(Geological Society of America\) Style](#)
14. [Hart's Ruels \(Oxford Style\)](#)

15. [Harvard Style](#)
16. [IEEE Style](#)
17. [MHRA Style \(Modern Humanities Research Association\)](#)
18. [MLA Style \(Modern Language Association\)](#)
19. [NLM Style \(National Library of Medicine\)](#)
20. [Turabian Style](#)
21. [Vancouver Style](#)

Note: For CSE Department IEEE format will be followed.
